Cookies Set

A total of 58 cookies were available to the websites you visited during your recording (take a look at them all!). The most naughty cookie we recognised has a possible naughtiness score of 4 out of 5 (you what?) but you may have more sinful ones.

WARNING: This report should not be viewed as gospel! Cookie logging ain't perfect and our interpretations of cookies are very fallible, but congratulations on taking the first step to creating a plan to try to comply with the EU Cookie Directive. May the force be with you.

Cookie setting tools/services (probably) being used on ilgiocattolo.org

What	1st?	Cookies Set	Possible Naughtiness	Thoughts
Google Analytics	No	9	3	Google Analytics uses this cookie name. Not exactly phone tapping
AddToAny	No	2	3	Most likely you've got some sharing buttons on your site. They are watching your users but they do have a facility for you to opt-out of their cookies that you might want to use. They may also be setting media6degrees.com cookies via your site as well. AddToAny is now part of Locerz.com
DoubleClick	No	4	4	Uh oh - is your name Ernst Stavro Blofeld? You gonna have to get consent for this advertising network. May not have an HQ in a crater but they do do banner ads etc. Make sure you know if you are doing remarketng or not (either through DoubleClick or their owners Google as remarketing needs serious consent.)

Drupal?	No	1	1	We know Drupal uses this and there is a discussion about it's implications for the cookie directive hee: http://drupal.org/node/1153064
GetClicky	No	3	3	Web Statistics Tool
Session	Yes	6	1	Probably a session cookie. Sugar and spice mostly but in the hands of SPECTRE, who knows - discuss with your developer

Over time we hope to add more information about common cookies and the directive. You can keep up to date here. Better still if you want to contribute knowledge we'd love to hear from you.

What Now?

OK, serious hat on.

We'd recommend you look at the complete log of cookies and seek to determine your own view of cookie naughtiness.

In our opinion if you have cookies with a naughtiness score of 2 or more, then the law requires you to get consent from your site visitors to use cookies. The first step in that process is to tell them what you use cookies for. That's what you need a cookie information page for. And good news is we can help you with that (yes, for free):

Next Step: Generate a Cookie Information Page »
